WHY THIS STUDY? 17th Avenue is an important roadway for all modes of transportation. While it is primarily residential, the corridor supports some of the most intense retail and commercial development in the metro. It serves many major bicycle and pedestrian generators including schools and parks in West Fargo, Fargo, and Moorhead. The purpose of this study is to understand the current and long-term vision of 17th Avenue to identify and analyze the impacts of potential multimodal improvements.

WHY THIS MEETING? The purpose of this meeting is to identify and discuss issues and opportunities to make 17th Avenue a safe and efficient corridor for all modes of transportation.
